

**BeWear Beacon Version 3:****Beacon Features:**

- 4 ultrasonic sensors
- Adjustable range with a max of 30 ft
- LED strip turns on when Receiver is in range

**Receiver Features:**

- When in range of Beacon, LED and Speaker turn on
- 30 ft range

Version 3 combines BeWear Beacon Version 2 and Version 3, by using a Bluetooth receiver as well as ultrasonic sensors. If the ultrasonic sensors are triggered the Bluetooth will activate and search for the receiver in a 30 ft radius. If the receiver is found within the 30 ft radius and the ultrasonic sensors are triggered then the LED strip on the beacon will activate and the receiver's sensory feedback will also activate.
